What should I do if I suspect an adult is endangered?

All persons are required by law to report all cases of suspected battery, neglect or exploitation of a vulnerable adult. A report may be made by calling the APS statewide toll-free number at **800-992-6978**, calling the nearest APS office or law enforcement agency or by submitting an online report.

Local offices and contact information can be found on page 72.

■ Aged and Disabled Medicaid Waiver

The Aged and Disabled waiver provides an alternative to nursing facility admission for adults and persons of all ages with a disability. The waiver is designed to provide services for people who would otherwise require care in a nursing facility. Waiver services can be used to help people remain in their own homes, as well as help people living in nursing facilities return to community settings such as their own homes, apartments, assisted living or adult family care settings.

How does someone qualify for the Aged and Disabled waiver program?

To qualify for the Aged and Disabled waiver, applicants must qualify for full coverage Medicaid and have needs that would otherwise require nursing facility level of care.

What are the income limits?

Applicants should refer to current Medicaid income limits. However, a special income limit is applied to Aged and Disabled waiver recipients when Medicaid eligibility is determined.

- Financial eligibility
 - > 300% of Supplemental Security Income,
 - > Parental income and resources disregarded for children under 18, and
 - > Spousal impoverishment protections similar to those for nursing homes

Visit the “Am I Eligible” guide at www.indianamedicaid.com (click on “Members” first) for current income limits.

What are the asset/resource limits?

The resource standard is \$2,000 for a single individual and \$3,000 for a married couple. However, for certain married couples, if one spouse is receiving a home- and community-based services waiver and the other spouse is not and continues to live in the community, then spousal impoverishment provisions apply in which there are additional resource protections for the community spouse.

How does someone apply for the Aged and Disabled waiver?

■ Centers for Independent Living

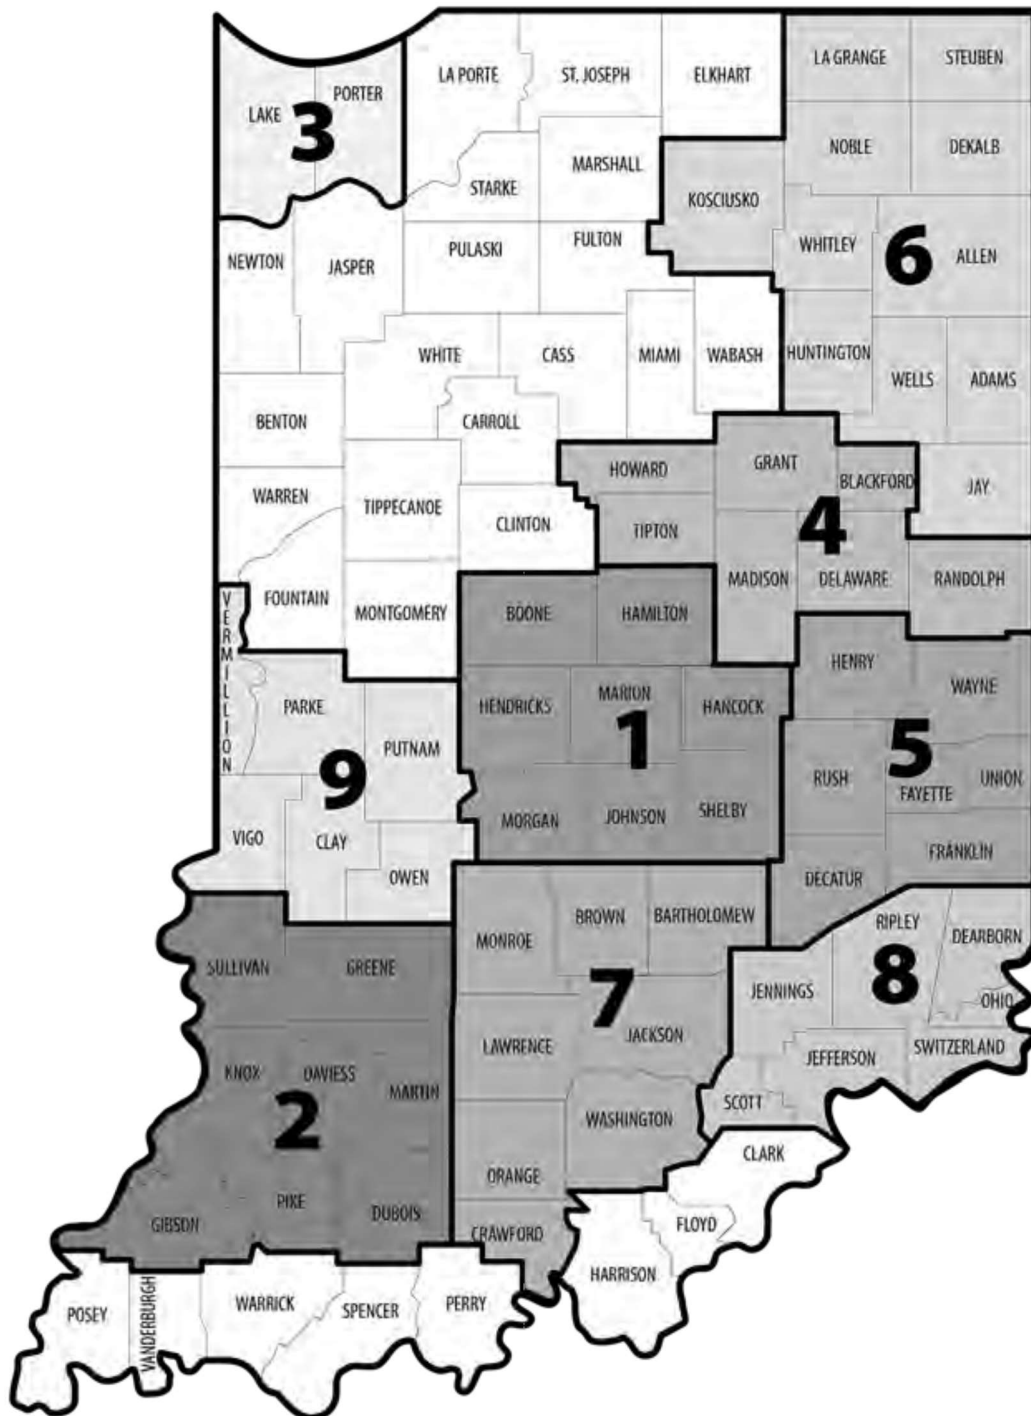

Independent Living philosophy emphasizes consumer control, the idea that people with disabilities are the best experts on their own needs, having crucial and valuable perspective to contribute and deserving of equal opportunity to decide how to live, work and take part in their communities, particularly in reference to services that powerfully affect their day-to-day lives and access to independence. Centers for Independent Living are consumer-controlled, cross-disability, nonresidential, private, nonprofit agencies that are designed and operated within local communities by individuals with disabilities. Each center is unique but operates under the same five core services.

Core services include:

- Peer support
- Information and referral
- Individual and systems advocacy
- Independent living skills training
- Services that facilitate transition from nursing homes and other institutions to the community, provide assistance to those at risk of entering institutions and facilitate transition of youth to postsecondary life
