

How does someone apply for Behavioral and Primary Healthcare Coordination?

The community mental health center will meet with the applicant to complete the Behavioral and Primary Healthcare Coordination application. They will ask questions about the applicant's physical and behavioral health and enter the information provided. Once clinically approved, the application must be approved by the Division of Family Resources. Once all components of the application have been reviewed, the applicant will then receive a letter stating if qualification was met for the program. This letter will give instructions on what rights exist if he or she does not qualify. For any further questions, applicants may contact the Division of Mental Health and Addiction at **317-232-7800** or **bphcservice@fssa.in.gov**.

■ Child Mental Health Wraparound

Child Mental Health Wraparound services provide young people identified as having a serious emotional disturbance with intensive, home- and community-based wraparound services that will be provided within a system of care philosophy and consistent with wraparound principles. Services are intended to augment the youth's existing or recommended behavioral health treatment plan (e.g., Medicaid Rehabilitation Option, Managed Care) and address the following:

- The unique needs of the Child Mental Health Wraparound participant
- A treatment plan built upon the participant and family strengths
- Services and strategies that assist the participant and family in achieving more positive outcomes in their lives

How does someone qualify for Child Mental Health Wraparound services?

Applicants must meet financial and behavioral health guidelines in order to be enrolled in the Child Mental Health Wraparound program. When an applicant completes an Indiana Application for Health Coverage, the Division of Family Resources will determine if he or she qualifies for health coverage. The Division of Mental Health and Addiction will determine if the behavioral health criteria have been met.

1915(i) Child Mental Health Wraparound exclusionary criteria

A youth with any of the criteria below will not qualify for Child Mental Health Wraparound services:

- Primary Substance Use Disorder
- Pervasive Developmental Disorder (Autism Spectrum Disorder)
- Primary Attention Deficit Hyperactivity Disorder

- Imminent risk of harm to self or others. Any youth identified as not able to feasibly receive intensive community-based services without compromising his/her safety, or the safety of others, will be referred to a facility capable of providing the level of intervention or care needed to keep the youth safe.
- Youth resides in an institutional or residential facility

What services will someone receive if eligible for Child Mental Health Wraparound?

Child Mental Health Wraparound services are provided by qualified, Division of Mental Health and Addiction approved, specially trained service providers who engage the participant and family in a unique assessment and treatment planning process characterized by the formation of a child and family wraparound team.

The state’s purpose for providing CMHW services is to serve eligible participants, who have severe emotional disturbances, and enable them to benefit from receiving intensive wraparound services within their homes and communities with natural family/caregiver supports. The CMHW services available to the eligible participant include:

- Wraparound facilitation
- Habilitation
- Respite care
- Family support and training for the unpaid caregiver

How does someone apply for Child Mental Health Wraparound?

For information contact the Division of Mental Health and Addiction at **317-232-7800**.

The table below shows the current eligibility requirements for the CMHW program. All of these criteria must be met:

Age	Must be between 6 and 17 years old
Financial Criteria	Must be eligible for Indiana Medicaid
Behavioral Health Criteria	Must have two or more DSM IV-TR diagnoses that are not considered excluded

If you encounter any terms or program names you do not understand, refer to the Indiana Family and Social Services Administration glossary of terms on page 126 or at www.in.gov/fssa/4999.htm.

■ Community Mental Health Centers

If you are looking for assistance for a mental health or addiction issue, there are providers available in every county. Providers can be accessed for children, youth, adults and seniors through a network of community mental health centers.

To locate a CMHC near you, go to www.fssa.in.gov/dmha and click on "Find a Local Service Provider." Then click your county on the map shown. The list below is also a starting point for connecting to services. For more information, call **317-232-7800**.

■ Problem Gambling / Gambling Disorder

What is problem gambling / gambling disorder?

A variety of terms is used to describe gambling issues and addiction. To provide consistency, DMHA will use the following terms when addressing specific gambling criteria:

The term “problem gambling” is used when referring to prevention, education and/or awareness activities.

The term “gambling disorder” is used when referring to gambling addiction
